ABOUT US

VSJ Garments began in 2004 as a small stitching unit in Tirupur — the knitwear capital of India. Today we are a vertically integrated manufacturer and exporter running knitting, dyeing, cutting, printing, stitching and packing under one roof, shipping to buyers in more than 20 countries.

Two Decades Of Knitwear Craft From Tirupur

Our growth has been built one buyer relationship at a time. Retailers, brands, wholesalers and institutional buyers trust us because every stage of production stays in our control — no middlemen, no surprises, just consistent knitted apparel delivered on schedule.

Milestones That Shaped VSJ

2004 — Founded in Tirupur as a 12-machine stitching unit serving domestic knitwear brands.

2008 — Shipped our first export programme to a UK high-street retailer — 40,000 t-shirts.

2013 — Commissioned in-house knitting and dyeing units with ZLD effluent treatment.

2018 — Achieved SEDEX, BSCI and WRAP audits; added GOTS-certified organic production lines.

TODAY — A 1,20,000 sq. ft. facility exporting to 20+ countries with 850+ skilled employees.

PRODUCT RANGES

Four core knitwear categories for men, women and children — built from your tech pack or our in-house design library. Open a category to view the gallery.

Mens Wear

Womens Wear
